EDUCATION

Emory University

Atlanta, GA

Bachelor of Science in Computer Science; Double Major: Business Administration, Concentration: Finance May 2028

Cumulative GPA: 3.9/4.0

Relevant Coursework: Mathematical Statistics; Math of Data Science; Accounting: The Language of Business; Data Structures

Federal University of Rio de Janeiro

Rio de Janeiro, Brazil

Bachelor of Science in Computer Science

Feb. 2024 – Aug. 2024

Cumulative GPA: 87/100

Relevant Coursework: Computer Programming I; Fundamentals of Systems; Software Processes; Discrete Mathematics

WORK EXPERIENCE

Linker Vision

Remote

AI Software Engineer Intern

Jun. 2025 – Aug. 2025

- Optimized a real-time object detection model for NVIDIA Jetson edge devices to reduce latency using TensorRT
- Collaborated with the Engineering & Research team to refactor an inference engine, decreasing CPU use and heat
- Integrated 5,000+ images from an AI SaaS cloud simulation for the smart city project, increasing the model's accuracy

LEADERSHIP & COMMUNITY INVOLVEMENT

Blockchain at Emory

Atlanta, GA

Chief Technology Officer & Head of Mining

Feb. 2025 – Present

- Deployed the club's website with integrated member directories, project showcases, and sponsor/financial dashboards
- Lead the mining operations across two sites, managing a \$10K hardware investment and optimizing software protocols

BRASA at Emory

Atlanta, GA

Board Member

Aug. 2024 – Apr. 2025

- Facilitated weekly executive board meetings, campus-wide events, and execution of projects (e.g., 2025 merchandise)
- Assisted in organizing the 2024 Brazilia n Professionals Abroad networking event in Atlanta as an invited guest

PROGRAMMING PROJECTS

[Should RISE invest in Uniti Group](#) | Python, pandas, numpy, yfinance, openpyxl, scipy, xlswriter

- Financial analysis tool for Uniti Group investment evaluation, featuring automated DCF valuation and risk analysis
- Projects a \$19.25 price target through a 5-year FCF analysis, revealing a 7.4x Debt/EBITDA and 2.2x dividend coverage
- Executes a multi-scenario valuation framework, identifying key risks of tenant concentration and high leverage, leading to a "Strong Buy" recommendation with Bull and Bear case price targets of \$38.22 and \$6.56 respectively

[MPT Portfolio Optimizer](#) | Python, NumPy, Pandas, SciPy, Matplotlib, yfinance

- Modern Portfolio Theory optimizer applying efficient frontier analysis to stocks for systematic risk-return optimization
- Simulates 25K using Sharpe-maximizing, weighted, and minimum-volatility strategies to evaluate risk-return tradeoffs
- Develops resilient data pipeline with 99%+ uptime and professional visualizations enabling visual risk analysis

[S&P 500 Dashboard & DCF model](#) | Python, HTML, Flask, Plotly, yfinance

- Fundamental analysis system processing all S&P 500 stocks with 50+ technical indicators, formulating 6-sheet Excel dashboards, interactive HTML visualizations, scoring algorithms, sector breakdowns, heatmaps, and a DCF model
- Streamlines data with API integration, caching, and error handling, ensuring 99%+ retrieval accuracy across timeframes

ADDITIONAL INFORMATION

Skills: MS Office & VBA, manipulating CSV files, type 105wpm, Portuguese (native), English (fluent), Spanish (intermediate)

Programming: Python, Java, Flutter, C, Full Stack development, foundation in Object-oriented programming and algorithms

Awards: OBMEP Math Olympiad (3rd, 2nd), OBMF Financial Math Olympiad (1st), OBECON Economics (2nd)

Interests: Soccer, NBA, Chess, Quantitative Brain Teasers, Arduino, Weightlifting, Scuba Diving, Classical Music
